## GLAZING POLISHING MACHINE

PA series glazing machines are designed to perform glaze polishing on knives blades after they have been grinded.

The knife goes under a ring-shaped special glazing grinding wheel, which works using its lateral face.

		PA1	PA2
	Diameter of grinding wheel (mm)	530	800
	Glazing power	3 / 4	3 / 5.5
	Polishing length (mm)	310	410
	Approximate weight (Kg)	1450	1620
